WORK EXPERIENCE

Aviansys Technologies Pvt. Ltd. | Bengaluru, IN

Software Engineer

1st Sep 2022 - 30th Dec 2023

Developed a comprehensive Human Resource Management System utilizing modern web technologies to streamline HR processes and enhance organizational efficiency.

Responsibilities and Achievements:

Technology Stack:

Implemented the project using Next.js, React, and Redux for a robust and scalable architecture.

Development Role:

Served as a Full Stack Developer, contributing to both front-end and back-end development.

Developed a responsive and user-friendly interface for HR tasks using React components.

Augment Systems Pvt. Ltd. | New Delhi, IN

Web Developer

1st Aug 2019 - 30th Nov 2021

I have successfully developed the frontend of Assignment Help websites for my current organization, leveraging skills in ReactJS, React Bootstrap, HTML, and CSS. These websites are designed to enable users to submit assignments and receive them within specified deadlines, along with associated assignment charges.
